

ARCHITECTURAL LED CYLINDER LIGHTS

SEARCH CODE: SC44005

FEATURES:

- **Multiple Finish Options:** Available in Black, Bronze, White, and Silver to complement various architectural designs.
- **Selectable Multi-Color Temperature (MCTP):** Adjust between multiple CCT and wattage options for tailored illumination.
- **1-10V Dimming Capability:** Allows for smooth, adjustable brightness levels.
- **High Lumen Output:** Delivers up to 6,600 lumens for optimal brightness.
- **Precision Beam Angle:** 45° beam angle on each side for focused lighting.
- **Integrated Photocell:** DC button photocell with ON/OFF switch for energy-efficient automation.
- **Durable Housing:** Constructed with die-cast aluminum and glass for long-lasting performance.

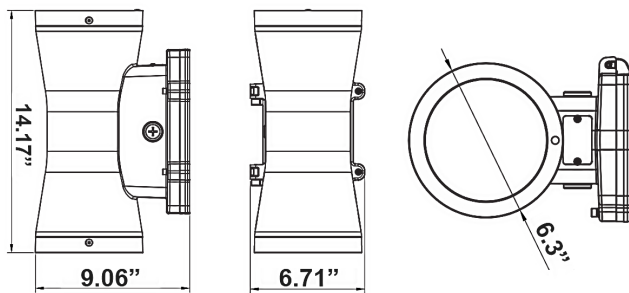

WARRANTY & LISTINGS:

- 5-Year Warranty
- ETL listed for compliance with safety standards
- IP65 rated for wet location use

ELECTRICAL:

- **Voltage Range:** Operates on 120-277V AC for wide-ranging applications.
- **High Power Factor:** >0.90 for energy-efficient performance.
- **Adjustable Wattage:** Choose between 18W, 30W, 45W, or 60W.
- **Efficacy:** Provides 110 lumens per watt for superior efficiency.
- **Low Harmonic Distortion:** THD <20% for stable operation.
- **Operating Temperature:** -68°F to 104°F
- **Color Rendering Index (CRI):** CRI ≥ 80 for accurate color representation.

DIMENSIONS:

APPLICATION:

- Walkways & Pathways
- Site Lighting
- Parking Areas
- Doorways
